

## New Uritac UK-100 Waterless Urinal Cartridge ;

- is definitely odourless and the most economic technology.
- can be used in Uritac and all other waterless urinal bowls.
- has patented one-way valve in it (no sealant liquid in cartridge). So urinal can be cleaned with water or any cleaning fluids.
- also collects tart, debris and uric sediment in cartridge. Does not pollute landfill or waterways. Eliminates the blockage of drain system.
- is changed between 15000 - 20000 usages.
